

The Alexander von Humboldt Foundation and the Cluster of Excellence „The Future Ocean” at the Christian-Albrechts University in Kiel, Germany, offer

10 postdoctoral positions

in **marine, environmental, earth and related sciences**, but also including **economy, medicine, biology, chemistry, mathematics, geology, geography, law and informatics** to work together to understand the ocean, recognize related economic and social impact factors and devise solutions to sustain our future.

A Future Ocean - Alexander von Humboldt Research Fellowship for postdoctoral researchers allows the beneficiary to carry out a long-term research project (**6-24 months**) he or she has selected in cooperation with an academic host in Kiel, Germany. The program addresses two groups of researchers: young postdoctoral researchers who completed their PhD up to four years ago, and experienced postdoctoral researchers, who completed their PhD up to twelve years ago. We advise to take a look at the details and requirements at

<http://www.futureocean.org/das-netzwerk/humboldt/>

The Future Ocean aims to welcome the first fellows in fall 2010, requiring applicants to submit their research plan to the Alexander von Humboldt Foundation by spring 2010. Later applications are also possible, but will result in a later start. This advertisement has **no dedicated application deadline**. Positions remain open until filled, but at least until December 2010.

For questions and further information please contact Dr. Emanuel Söding (esoeding@uv.uni-kiel.de) at the Future Ocean office in Kiel, Germany.
