Applied Environmental Economics

A GIS Approach to Cost-benefit Analysis

IAN J. BATEMAN, ANDREW A. LOVETT
AND JULII S. BRAINARD

- First full length analysis of the potential of GIS in environmental and resource economics
- Inter-disciplinary appeal – economists, GIS specialists and environmental management
- Technical level accessible to all numerate graduate students with lots of real life examples and strong policy relevance

“A fine example here of economic valuation being put to an imaginative and unique use by some of the most exciting practitioners of the art of economic valuation.”

David W. Pearce
(from the Foreword)

“Researchers in the field of land use and economic valuation will find this study a source of information and inspiration.”

Netherlands Economic Review
