

EAERE FEEM VIU European Summer School

in resource and environmental economics

ENVIRONMENTAL REGULATION

Venice, June 28th - July 4th 2015

The theme of the School is the economic analysis of environmental regulation. No restriction is put on methods used - theoretical, econometric and experimental approaches will be covered. The School will be of interest to those working on topics including (but not limited to): economics of standards, pollution taxes, tradable permits, comparative performance of instruments, self-regulation, information-based regulation, disclosure programmes and green labeling, impacts of regulation on R&D and innovation, enforcement and compliance, assessing the impact of regulations on behaviour, cost-benefit analysis of actual regulations, international coordination of regulation, formal analysis of regulatory institutions, political economy of environmental regulation.

Faculty & Lecture Topics

Anthony **HEYES** (University of Ottawa), Behavioural Environmental Regulation - School Coordinator
Stefan **AMBEC** (Toulouse School of Economics), Game Theory and Environmental Regulation
Timo **GOESCHL** (Heidelberg University), Environmental Regulation: Experimental Methods
Matthew **NEIDELL** (Columbia University), Environmental Regulation: Empirical Methods
Roberton **WILLIAMS III** (University of Maryland), Market-Based Instruments

Admissions and Scholarships

Application is restricted to 2015 EAERE members, both European and non European citizens. Given the highly interactive activities planned at the School, the number of participants is limited to 20. There is no participation fee. All applicants can apply for a scholarship.

Deadline for applications: February 1st, 2015
