

Climate Change Economics and Management: Linking Adaptation and Mitigation

Spring 2022 thematic workshop of FAERE
April 21-22, 2022 - University Paris-Saclay

CALL FOR PAPERS

The recent COP26 confirmed both the urgency of climate action and the increasing discrepancy between climate pledges and current emission patterns. Though mitigation appears essential to limit climate change consequences and avoid tipping points, it is now imperative to adapt quickly to climatic hazards, especially in vulnerable sectors or regions. Effective and cost-efficient actions require an improvement in the general understanding of the synergies, conflicts, and trade-offs between mitigation and adaptation strategies.

On the 21 and 22 of April, 2022, the Graduate School of Economics & Management at University Paris-Saclay will hold the 12th [FAERE](#) thematic workshop on the topic “Climate Change Economics and Management: Linking Adaptation and Mitigation.” This workshop will be an opportunity for scientists in economics and management to discuss these issues, but also to open a broader debate with other disciplines and key stakeholders.

This two-day workshop will include

- A keynote lecture by [Pr. Thomas Sterner](#) (University of Gothenburg) on the design of environmental policy instruments.
- Sessions of selected research papers in economics or management sciences.
- Posters exposed during the workshop.
- A roundtable with scientists, policy-makers and stakeholders, to discuss the conclusions of the forthcoming AR6 IPCC Climate Change 2022 report on “Impacts, Adaptation and Vulnerability” and “Mitigation of Climate Change” to be released a few weeks before the workshop.

Location: The workshop will take place at ENS Paris-Saclay (4 Av. des Sciences, 91190 Gif-sur-Yvette, France).

Papers in economics and management sciences on various aspects of mitigation and/or adaptation in policy-making, economic agents' behavior, or firms' strategies and management are welcome.

Submissions should be sent to CCEM.UPSaclay@gmail.com. Priority will be given to full papers. Travel and accommodation expenses will be partially covered for speakers.

Deadline for paper submission: February 15, 2022

Notification of acceptance: March 1, 2022

Deadline for registration (speakers and attendees): March 15, 2022.

Participation is free of charge, but registration is mandatory. The event will comply with the relevant protocol regarding COVID.
