Focus on

2024 EAERE General Assembly of Members

This year's Annual General Assembly is convened as follows:

First Convocation:

June 28th, 2024, from 09.00 to 10.00 CEST

EAERE Legal Seat - Via della Libertà 12 - Marghera-Venice, Italy

Second Convocation:

July 1st 2024, from 16.00 to 17.30 CEST

***In-person:* EAERE 2024 Conference Venue - Naamsestraat 22 - 3000 Leuven, Belgium (room 01.46 – “Promotiezaal”)**

***Online:* Zoom platform**

As we did last year, we opted to schedule the Assembly before the 2024 EAERE Annual Conference started. The preliminary programme of the Annual Conference is available [here](#).

EAERE2024 Job Market: applications still open

As usual, the EAERE website will host an EAERE 2024 Job Market web page showcasing candidates' and recruiters' profiles. In addition, this year a prominent area of the Conference venue will be available to host recruiters to showcase open job positions. Job market candidates and recruiters will freely interact. Interviews will be arranged individually between recruiters and candidates in a separate environment (virtually or in person) convened by the parties. Know more [here](#).

The EAERE job market is open to all EAERE individual and institutional members.

EAERE Award for Outstanding Publication in the Environmental and Resource Economics journal (ERE) 2024

EAERE is delighted to announce the winners of the 2024 edition of the EAERE Award for Outstanding Publication in the journal Environmental and Resource Economics (ERE): Antonio M. Bento, Noah Miller, Mehreen Mookerjee & Edson Severnini for their paper **"Incidental Adaptation: The Role of Non-climate Regulations"** *Environ Resource Econ* 86, 305–343 (2023). Congratulations to the authors!

The 2024 Award Nominating Committee recognises also the excellence of other three open access papers. To know all about winner and commanded papers, visit [here](#)

EAERE Country Representatives meeting

On May 16, 2024, the EAERE Country Representatives held their meeting online. It was a great occasion to discuss about future priorities and actions, but also about how to deal with new challenges. This year we received a record number of submissions (over 1500!) to our Annual Conference. This represents a great success for our Association and a sign of increasing interest from a community that keeps growing over time, but it also creates new challenges for the future to find the right balance between our desire for inclusiveness and the maximum number of participants that Conference venues can accommodate. Sincere thanks to all our country representatives for participating in the discussion and sharing your ideas!

69th Annual Conference of the Australasian Agricultural and Resource Economics Society

Agricultural sectors, natural resources, urban and environmental management and society more broadly are facing a range of challenges that are linked to transitioning to a sustainable future. These challenges include identifying pathways towards decarbonisation and preserving biodiversity, ensuring food security and affordability through resilient supply chains and governing emerging technologies. The 2025 AARES conference, on 11-14

February 2025, will explore these and other challenges in the transition process including the implications for policy and research. More information [here](#)

2nd Young AERNA Day

The 2nd Young AERNA DAY, hosted by the Department of Economics of the University of Girona on May 17th, brought together Ph.D. students/early career Post Doc and senior researchers. Twelve Ph.D.students/ earlier career PostDoc presented their studies which was then discussed by one of the senior researchers and the floor. All attendees agreed that it is a very stimulating format as it allows to learn Ph.D.students/ earlier career PostDoc from the experience of the senior researchers and the senior researchers have the chance to learn about new and upcoming topics and methods. The very well received keynote lecture was delivered by Xavier Labandeira where he analyzed the effects and implications of a tax reform for energy and transport. More information [here](#)

ERC Water-Futures project meeting in Athens

The [ERC-funded "Water-Futures"](#) project convened its quarterly meeting on May 16-17, 2024, at the Athens University of Economics and Business. Principal investigators Professors Marios Polycarpou, Barbara Hammer, Phoebe Koundouri, and Dragan Savić led discussions on advancing water infrastructure systems. Highlights of the meeting included invited talks by renowned professors Costis Daskalakis (MIT), Patrick Reed (Cornell University), and Allison Lassiter (University of Pennsylvania). The team showcased interdisciplinary research spanning water science, control theory, economics, and machine learning. The ERC Water-Futures Project, with a budget of €10 million, is the largest research initiative in the world focused on urban water systems. Know more [here](#)

Policy News

New EAERE POC members

The Policy Outreach Committee has enlarged its membership to [Valentina Bosetti](#) (Bocconi University), [Karen Pittel](#) (ifo Center for Energy, Climate, and Resources) and [Theodoros Zachariadis](#) (The Cyprus Institute). Their outstanding capacities to work at the science-policy interface and contribute to the policy debate, in their own countries and beyond will be of great support to the Committee's action and initiatives. Find out more about the EAERE POC [here](#)

EAERE POC Session on resilient economies and institutions to mitigate and adapt to climate change

The 14th edition of The [State of the Union](#) took place in Florence last 23 and 24 May 2024. This year, the conference had a special emphasis on the core themes of democracy and the rule of law, the digital and green transition, the future enlargements of the European Union, all of which will play a crucial role in the run-up to the European elections in June 2024.

A policy session on "Resilient economies and institutions to mitigate and adapt to climate change" was jointly organised by FSR Climate and the EAERE Policy Outreach Committee. The frequency of natural disasters due to climate change is increasing, and institutions across different geographic areas are not equally ready to cope with such events. In fact, the lack of adequate institutional responses is likely to exacerbate the consequences of these events. Making the EU and developing countries more able to cope with the devastating consequences of climate change requires an articulated policy mix around carbon price, and resilient and reactive institutions and processes. In the policy session, feasible manners to enhance resiliency to climate change were explored. The event also addressed how to better prepare agriculture, biodiversity, the health system and our economies in general to cope with climate change and how to protect the most vulnerable populations in developing countries and in Europe. More information [here](#)

Upcoming Events

Check out the [Agenda](#) on the EAERE website! All major events in EnvEcon signalled to EAERE are listed there and classified by type. Below is a snapshot of the Agenda for the next month.
