**Technical requirements for ZOOM Platform.** The video conferencing solution used for this meeting is **Zoom**.
You do not have to sign up for a Zoom account ahead of time: you will just click on the specific link for each session to join the session and will be prompted to download the Zoom software. It might take a minute or so and you will be able to join and fully participate in the sessions right after that. You won't need administrator rights for installing.
You should use high quality microphone and camera (external headset with microphone). Please, avoid the usage of the microphone built into the computer. Do an audio test! Don't skip over this step. Zoom will ask you to confirm that you've heard a tone and then playback sample voice audio.
